SATURDAY	..	2.30 p.m. to 4.30 p.m. „	

Except in cases of urgency patients are seen by appointments only. Appointments must be made in advance with the Almoner.

## FOREWORD.

---

The past year has been the first full year of peace since 1938 and the uphill task of reconstruction has begun. The war has left us many unwanted legacies. Our available beds for both patients and staff are much reduced by bomb damage and our main kitchen is still out of action. The remaining buildings need repair and modernisation.

Some progress has been made but it has been painfully slow. Housing has received the main priority in the building programme and our hospital extension scheme must wait until the urgent need for houses is less acute. In the meantime, like the harassed housewife, we have taken our place in the queue for licences in order to carry out such improvements as are practicable in the present shortage of labour and materials.

The National Health Service Act is now on the Statute Book and some time in 1948 the legal transfer of the Hospital property will take place. We are doing everything possible to see that Queen Mary's Hospital shall be handed over in good fighting trim, for the battle against disease is one in which no quarter must be given.

It gives me great pleasure to record that our friends are not deserting us at this eleventh hour. In spite of a tendency on the part of the public to think that the financing of hospitals can now be left to the Exchequer, our many supporters have stood by us and voluntary contributions have actually increased. What a wonderful thing is this spirit of voluntary service! Let us hope that it will be allowed to permeate the new Health Service in the coming years.

B.T. HEMPEL,  
Chairman.

## REPORT FOR THE YEAR 1946

---

The General Committee of Queen Mary's Hospital have pleasure in submitting to the Governors the Annual Report relating to the year ended 31st December, 1946.

The most notable event of the year for hospitals was the passing of the National Health Service Act, 1946, to which the Royal Assent was given on the 6th November. By virtue of this Act the Minister of Health will become responsible for providing the whole of the health services in England and Wales and will be given the ownership of voluntary and municipal hospitals alike. He will be advised by a Central Council and many of his powers will be delegated to Regional Hospital Boards for planning and administering the hospital and specialist services of large areas. These Regional Boards will appoint Management Committees to control and manage individual hospitals or groups of hospitals within the region. Teaching hospitals are placed in a different category as they will be controlled by Boards of Governors directly responsible to the Minister.

During the passage of the Bill through Parliament some important alterations have been made and there is reason to hope that many of the best features of the Voluntary Hospitals will be preserved in the new service. The extension of the powers of Management Committees will encourage local people to continue to interest themselves in the work of what they regard as their own hospital and there will still be scope for voluntary effort and gifts for such purposes as the provision of additional comforts for patients and staff and the improvement of services.

In the meantime the work of the Hospital continues to expand and every effort is being made to improve its service to the patients in spite of the difficulties imposed by the continued shortage of labour and materials.

### **General Work of the Hospital.**

During the year 2,835 in-patients were treated. These came from the following districts:—

West Ham	...	...	...	...	...	1,312
East Ham and Manor Park	...	...	...	...	...	337
Leyton and Leytonstone	...	...	...	...	...	464
London	...	...	...	...	...	36

Ilford ... ..	218
Wanstead and Woodford ... ..	98
Walthamstow ... ..	21
Chingford ... ..	12
Dagenham ... ..	70
Barking and Becontree ... ..	98
Romford ... ..	20
Essex ... ..	63
Other Districts ... ..	86
	<hr/>
	2,835

In addition 28,229 new out-patients were treated, and the total of out-patient attendances was 103,796, a considerable increase on the previous year.

The number of beds reserved under the Emergency Hospital Scheme was reduced from 25 to 20 on the 1st September and it is hoped that before long these remaining beds will be released.

#### **“ Margaret Lyle ” Maternity Wing.**

The rise in the birth-rate has created problems for all maternity hospitals and the shortage of maternity beds and trained midwives has aggravated the position. In these circumstances there has been heavy demand for the beds in the “ Margaret Lyle ” Maternity Wing and during the year 819 patients were admitted, including a number of ante-natal patients. 747 babies (399 boys and 348 girls) were born, there being 11 sets of twins.

Attendances at the ante-natal clinics totalled 8,985 and the “ bookings ” for the year numbered 785. There were 607 attendances at the post-natal clinics.

A total of 44 pupils entered for training. 37 sat for the C.M.B. Examination and 30 passed.

Midwives from the hospital attended 39 confinements at patients’ homes, the babies born being 19 girls and 20 boys. Visits to these patients numbered 876.

#### **Financial Statement.**

The total income and expenditure were as follows:—

	1946			1945		
Ordinary Income:	£	s.	d.	£	s.	d.
Voluntary Gifts ...	19,892	13	0	19,657	1	2
Receipts on a/c. of services rendered ...	36,561	9	10	31,425	0	0

Invested Property ...	3,110	1	6	3,311	9	5
	59,564	4	4	54,393	10	7
Extraordinary Income:						
Legacies ...	2,965	2	9	2,902	2	5
Total Income ...	£62,529	7	1	£57,295	13	0
Ordinary Expenditure:						
Maintenance and						
Administration	£85,575	6	2	£64,627	19	11

It is a tribute to the loyalty of the Hospital's supporters that, in spite of the publicity given to the National Health Service Act, there has been an increase in ordinary income. Unfortunately, there has been a much heavier rise in expenditure, due partly to the cost of repairs which could not be effected during the war but mainly to the higher scales of salaries and wages paid to many different grades of the hospital staff. These increases have been almost outside the control of the Board of Management as they arise from national agreements negotiated between the British Hospitals Association and Local Authorities on the one side and professional organisations and Trade Unions on the other.

The Annual Appeal which was issued towards the end of December had produced £2,843 by the 31st of December. This total, at the time of going to press, has risen to £4,132 8s. 2d. as compared with £4,641 the amount realised from the 1945 Appeal.

### Obituary.

Once again the Hospital has suffered severe losses through the death of many good friends and the obituary list includes the following names:—

The Right Honourable Will Thorne, C.B.E., P.C., J.P., a Vice-President of the Hospital. Through his influence and interest the bulk of the cost of building the Out-patient Department (the West Ham Borough War Memorial) was raised in 1922.

Mr. Alexander L. Howard, J.P., a Vice-President and a former member of the Board of Management, who was a generous supporter of the Hospital and was instrumental in providing and furnishing the present Board Room.

Dr. G. A. Troup, Honorary Physician from 1910 to 1931 and afterwards Honorary Consulting Physician. His kindly disposition endeared him to all and he was held in high esteem by his patients and colleagues. Dr. Troup bequeathed a legacy of £1,000 to endow a bed in the men's medical ward.

Mr. Alec Lyle, M.B.E., a former member of the Board of Management and a generous supporter of the Hospital.

### **Extensions and Improvements.**

Owing to the acute housing shortage it is not yet possible to proceed with the reconstruction and extension of the Hospital on the present site. The need for additional beds, however, is more acute than ever and much thought has been given to ways and means of extending the In-patient service. One step has already been taken by the acquisition of "Hillingdon House," Harlow, on lease from Mrs E. H. Swire, who has very kindly placed it at the disposal of the Hospital for a purely nominal rental. During the war "Hillingdon House" was occupied by the Red Cross as a Convalescent Home for Service cases, but, as it is now intended to use it for medical and post-operative surgical cases instead of convalescent patients, it has been necessary to carry out considerable alterations including a new central heating plant, improved lighting and the provision of sanitary annexes. Licences have been granted but owing to the shortage of essential equipment such as radiators, inevitable delays have occurred and Hillingdon is not expected to be ready for occupation until later in the year.

In the meantime various improvements have been carried out at the main Hospital. The complete overhaul of engineering and electrical services has made good progress although here again there has been considerable delay in obtaining much needed laundry machinery. New bed-pan washers and sterilizers, which are on order for the "Lyle" Maternity Wing, are also awaited with impatience.

The canteen in the Out-patient Department has been reopened and is obviously appreciated by the patients.

HIS ROYAL HIGHNESS THE DUKE OF GLOUCESTER, K.G.

President of the Hospital

Photograph by Vandyk.

### Medical Staff.

With the end of the war, the Medical Staff requirements of the Hospital have been carefully reviewed. Temporary war time appointments have been re-advertised and new appointments have been made in order to give the patients the benefit of a well balanced team of Specialists. The General Committee express their gratitude to the temporary Staff who gave such excellent service during the war.

Mr. A. E. Mortimer Woolf, who kindly deferred his retirement from the active Staff until the end of the war, has been appointed Consulting Surgeon in recognition of his valuable services as Assistant Surgeon and Surgeon for a period of twenty-seven years.

The services of Dr. Niel McDonald, also, were honoured by his appointment as Consulting Anæsthetist on his retirement from the Anæsthetic Staff.

The following appointments were made during the year:—

Mr. H. W. S. Wright (previously Hon. Asst. Surgeon), Hon. Surgeon.

Mr. J. A. McLauchlan, Hon. Orthopædic Surgeon (after holding this post in a temporary capacity).

Mr. I. Spiro, Hon. Ophthalmic Surgeon.

Dr. S. Behrman, Hon. Neurologist.

Dr. Nellie Lanckenau, Hon. Physician i/c Physiotherapy department.

Mr. J. T. Fathi, Hon. Assistant Surgeon.

Drs. Wynter, Blackburn, Etheridge, Braddon and Garden, Hon. Anæsthetists.

The Committee also welcome the return of Dr. Neustatter and Dr. Johnston Craig after absence on military service.

Part-time Registrars have been appointed as follows:—

Dr. F. L. Lydon, Medical Registrar.

Mr. Roy Parkinson, Surgical Registrar.

Mr. B. G. Spiers, Obstetric Registrar (previously Resident Medical Officer, Resident Assistant Surgeon).

### Nursing Staff.

Miss M. Pelbrough has resigned her post as Sister in charge of the "Margaret Lyle" Maternity Department in order to take up another appointment. Miss A. K. Hooper, who was previously Labour Ward Sister in this Department, has been promoted to the senior post.

Mrs. Spiers (nee Lawrie) has resigned her post of Theatre Sister after many years' valuable service in this department and Miss B. M. Press has been appointed in her place.

The examination results for 1946 were as follows:—

			Entered	Passed
Hospital	...	...	11	10
State Preliminary	...	...	10	9
State Final	...	...	11	10
Invalid Cookery	...	...	14	14

Teachers and candidates alike are congratulated on these examination results and it is gratifying to be able to report that once again the Nurses who took the Invalid Cookery Examination obtained outstanding successes. Of the 14 nurses who passed this examination, 13 gained First Class Certificates and 1 gained a Second Class Certificate.

The Gold Medal, given by Lord Lyle, was awarded to Nurse J. Middler, as the most efficient nurse of the year.

The Silver and Bronze Medals, the gift of Mrs. Hempel, were gained by Nurses R. Stewart and M. Barrett respectively.

Thanks are due to Lord Lyle and Mrs. Hempel for so kindly giving these medals.

### **Other Staff.**

Mr. D. Llewellyn has retired from his post of Pharmacist and takes with him the good wishes of all connected with the Hospital. The Committee appreciate the loyal and devoted service which he gave, particularly during the anxious war years.

Mr. J. C. Durnan, M.P.S., M.S.R., has been appointed to this post and the Dispensary Staff has been increased by the addition of a second Assistant Pharmacist and a pupil.

### **Auxiliary Committees.**

Once again the Auxiliary Committees have done excellent work for the Hospital in spite of the uncertainty created by the introduction of the National Health Service Bill. At one stage it seemed probable that their activities would have to come to an end, but the value of the wonderful voluntary work of bodies of this kind, not only to the institutions concerned but also to the nation as a

whole, has been recognised and as already stated at the beginning of this report, there will still be ample scope for them in the new Health Service. The following record of their work in 1946 shows that the spirit of service to humanity is still as strong as ever. Most grateful thanks are expressed to the officers and members for their untiring efforts.

**Ladies' Linen League.**—During the year 3632 articles and garments valued at £1,007 were produced. These were presented by Mrs. Philip Lyle at the Annual Display and Ceremony of "Handing Over" and were accepted by the Honourable Mrs. Charles Lyle on behalf of the Hospital.

**Ladies' Linen League, "Chigwell Branch."**—A cot has been named in recognition of a splendid contribution of £500 for the Children's Ward.

**West Ham Hospital School Children's Fund.**—A generous contribution of £250 has been made to the funds of the Hospital and in addition, a sum of £133 has been subscribed towards the cost of treating school children.

**Aid Committee.**—This year the usual splendid contribution of £1,000 has been increased to £1,500. Of this amount £1,000 has been earmarked for the purchase of a Superficial X-Ray Therapy Apparatus and the remainder for general maintenance.

**Ladies' Committee.**—£150 has been handed over as a first instalment towards a fund of £500 for the purpose of naming a cot in memory of the late Mrs. James Fife, a former honorary Secretary of the Ladies' Committee.

#### **"Mortimer Woolf" Library.**

At the beginning of the year the stock of books in the Nurses Library was 364 volumes. During the twelve months 128 volumes have been added making a total stock of 492.

Excellent use has been made of the library and this is reflected in the total issue and type of books which have consistently been on loan. Among the more popular of these are the works of H. V. Morton and Robert Gibbings "Coming down the Wye".

Good use, too, has been made of the technical section and also the works of a reference character.

The Library has been tastefully decorated and furnished and is attractive whilst retaining its dignity and charm.

The Nursing Staff are most grateful to Mr. A. E. Mortimer Woolf for his kind and generous gift.

### **Great Eastern Mechanics' Institution.**

A pleasing ceremony took place in the Board Room of the Hospital on the 21st November when Sir Ronald Matthews, as President of the Great Eastern Mechanics' Institution, presented a cheque for £1,131 15s. 7d. to the Hospital. Owing to altered conditions the work of the Institution (one of the oldest of its kind in the country) had become superfluous and the members decided to donate the whole of their remaining funds to the Hospital. In addition to Sir Ronald Matthews the Institution was represented by its Chairman, Mr. J. I. Hill, supported by members of the Committee.

One of the many distinguished visitors on this occasion was Alderman C. N. Key, M.P., Parliamentary Secretary to the Ministry of Health, who paid a tribute to the immeasurable service rendered by the Voluntary Hospitals to the community and expressed the view that under the new Health Service the opportunities for voluntary work would be greater than ever.

### **Thanks.**

Grateful thanks are hereby tendered to:—

The British War Relief Society of the United States of America, the Canadian Red Cross and other friends overseas for consignments of garments, toys and other articles.

The British Red Cross for the gift of a Ford Utilicon Car and various stores at Hillingdon House.

The Rev. Allen Weir, M.A., Hon Chaplain, for his ministrations and visits.

The Clergy of all denominations for their help and for their offerings during the year.

Mrs. I. G. Wadeson for raising a very substantial sum of money by means of dances, etc. Having completed the endowment of a "Victory" Cot, Mrs. Wadeson has continued to assist in providing many articles of equipment.

Mrs. Ernest Ward for gifts of children's woollies.

The Committee of Managers of West Ham Park and to Mr. R. J. Woodend, Park Superintendent, for a continuous supply of vegetables grown in the Nurseries in the Park.

Mr. C. F. Clark of Loughton for generous gifts of vegetables.

Messrs. Hilleary for advice and service in their capacity as Honorary Solicitors to the Hospital.

Mr. Granger, Milk Analyst, for his gratuitous services rendered during the year.

The members of the "K" Division Metropolitan Police for their unfailing help and co-operation.

The Press for giving space to advertise the needs and activities of the Hospital and its associated Committees.

Mr. and Mrs. R. Collischon, Lt.-Colonel Leon Jones, Mr. J. G. Read and Mr. W. T. Towler for many gifts and help in various directions.

Mr. Geoffrey E. Howard for gifts of Periodicals throughout the year for the Nurses.

The Managers of the Broadway Cinema and the Rex Cinema for kindly granting passes to the members of the Nursing Staff.

The Managers of London Theatres and the Theatre Royal, Stratford, for their gifts of tickets.

The British Red Cross and St. John's for gifts to the Service patients.

West Ham United Football Co., Ltd., through Mr. C. Paynter, for kindly allowing service patients to attend matches free of charge.

Members of the Blood Transfusion Service.

Mr. H. Hayhow, M.B.E., F.I.M.T.A., F.S.A.A., Hon. Auditor and his Staff for their services in connection with the Audit of Accounts.

All those kind friends who, throughout the year, sent help in money or in kind and organised entertainments in support of the Hospital.

Your Committee gratefully acknowledge receipt of the under-mentioned gifts:—

### Conclusion.

Under the Royal Charter granted in 1917, the Corporation was charged with the duty of "carrying on and conducting the Hospital more efficiently and with greater advantage to the Patients." The General Committee, to whom the management of the Hospital is entrusted, have endeavoured to carry out this duty and their policy is to see that when the Hospital is absorbed into the new Health Scheme, it shall be at the highest possible level of efficiency. Unfortunately there are no accumulated funds available and an urgent appeal is made to all friends and well-wishers to continue and, if possible, increase their support so that the work may not suffer from lack of funds at this late stage.

By order of the Committee,

M. J. HUNTLEY,

House Governor and Secretary.

### ALMONER'S REPORT

As was to be expected, the number of Out-patients interviewed during 1946 shows an increase over the previous year, and the number of maternity patients has also risen. The most notable increase, however, is in the number of surgical appliances supplied, the figure being almost 100 more than in 1945 and is indeed higher than for any pre-war year since 1932. So far as one can judge, this increase is chiefly due to the fact that parents are now seeking treatment for their children for conditions which even a few years ago would have been unnoticed or ignored.

A great change which the year has brought results from the Education Act of 1944, as a consequence of which, separate records must be kept of school children attending Hospital. Under this Act, the Education Authority also accepts responsibility for the cost of children sent to Convalescent Homes. Grants from the Children's Convalescent Treatment Fund, therefore, are only required for the "under fives" and those between 14 and 16 years of age. More children were sent away in 1946 and vacancies are now very much easier to obtain.

### Children's Convalescence.

Number of children sent away	...	...	32
Number taken over by Local Authority	...	...	3
Remaining from 1945	...	...	2

Average length of stay per child ...	14½ weeks
Average cost per child ... ..	£17 7s. 3d.
Average cost per child to the Children's Convalescent Treatment Fund ... ..	£2 5s. 9d.

### General Figures.

Interviews of new Out-patients ...	13,315
Service and Civil Defence Patients ...	587
Convalescence ... ..	86
Surgical appliances ... ..	442

In conclusion, I should again like to record my appreciation of the co-operation with this Department of the Medical, Nursing, and Administrative Staffs.

K. R. SNELL,  
Almoner.

## REPORT OF THE HON. MEDICAL STAFF

The past year will be known to posterity as the one in which the great change in the Medical Services of the Country was inaugurated. With the passing of the National Health Service Act many changes will occur—some by design—and maybe many changes not yet envisaged by the “Planners”. Let us hope and trust that the move will be a forward one to the honour and benefit of the Profession no less than for the material good of the patients and the health of the Nation.

We have emerged from the grim years of War and have been considerably occupied with re-adjusting the work of the Hospital. The paucity of bed accommodation has been a very great handicap in finishing the treatment that we have been able to give to the sick public and to remedy this the Board of Management have been assiduously pursuing the search for more and more beds.

The Hospital itself needs to be re-built and while Plans remain in their folders they are never-the-less there and ready for the time when other, and what at present are considered more pressing social reconstruction needs, have been satisfied.

The social order changes and the time may arise in the not distant future when minor sickness as well as major sickness will have to be admitted to the Hospital beds and the saving in man and woman power by a more rapid and complete physical recovery will be important. This, however, will necessitate a great increase in both beds and Nurses.

We look forward to the opening of the Annexe at Harlow and hope that still further beds can be obtained in other quarters.

The years of War meant an inevitable loss of Medical Staff and while the work was carried on by colleagues temporarily appointed to the Staff and for whose self-sacrifice in coming to our aid we are so grateful, it has been necessary to fill in the gaps during the past year. We welcome Mr. McLauchlan who has now become Orthopædic Surgeon to the Hospital as well as Mr. Spiro who has been confirmed in his appointment as Ophthalmic Surgeon. We also extend a welcome to Dr. Behrman, Neurologist, Dr. Lanckenau, Physician in Charge of the Department of Physical Medicine, also to Mr. Hervey, Oto-Rhino-Laryngologist, and Mr. Fathi as Assistant Surgeon.

It is a pleasure to see several colleagues who have been away working in other fields during these past years. Truly can we now feel that we are a full and comprehensive Medical Staff able to give adequate advice to the patients in the practice of the Hospital in its Out-patient work. It yet remains to obtain a sufficiency of beds to complete the treatment of all those who seek our help and advice.

There is one resignation, that of Mr. Llewellyn, the Chief Pharmacist, which the Medical Staff regret, while well knowing the inevitability of such things. Mr. Llewellyn has been a good friend to all of us for many years and to those of the Staff who were at the Hospital in the War years his constant presence on duty and un-failing philosophy have been a fine example. The Hospital and the Medical Staff have lost a valued servant and friend.

Numerous innovations have been inaugurated during the past year. Medical, Surgical and Obstetric Registrars have been appointed to assist in the general work of the respective Departments. Teaching of Senior Students has begun. Later it is hoped to recommence post-graduate courses, and the Medical Council have appointed one of its members, Dr. Claude Elman, to act as Dean. The post-graduate Teaching of London will have to expand to fulfil the undoubted need for more Centres for such work.

The Department of Physical Medicine, which has struggled so nobly to keep going with tired and worn out apparatus, has now been taken in charge by Dr. Lanckenau and many extensive changes are contemplated as the Department is very overloaded and under-staffed. New apparatus is urgently needed and it is hoped that this may be supplied in spite of the many restrictions on purchasing. This branch of therapy has become popular and more imperative as the years go on and a fully equipped and staffed Department of Physical Medicine is essential to any modern general Hospital.

In conclusion the Medical Council offers its congratulations to one of its old colleagues Mr. Cole in his award of the O.B.E. and to Dr. Doyne Bell on being appointed Pædiatrician to Charing Cross Hospital and Mr. Mimpriss to St. Thomas', and places on record the happy and co-operative relations it enjoys with the Chairman and Board of Management of Queen Mary's Hospital.

## BALANCE SHEET (continued).

[illegible]

BERNARD T. HEMPEL, *Chairman.*

H. STANLEY CLARKE, Deputy Hon. Treasurer

I have examined the foregoing Income and Expenditure Account and Balance Sheet and certify that in my opinion they exhibit a complete and correct view of the financial position of the Hospital.

I have verified the Investments and Bank Balances.

To the best of my knowledge and belief the regulations of the Revised System of Hospital Accounts as modified by the instructions of King Edward's Hospital Fund relating to the treatment of Free Legacies, dated December, 1940, have been followed.

Adjustments have not been made in the Accounts in respect of War Damage sustained by the various assets belonging to the Hospital.

95 THE GROVE, STRATFORD.

1st August, 1947.

H. HAYHOW, M.B.E., F.I.M.T.A., F.S.A.A.,

Hon. Auditor.

Owing to the continued paper restriction, the Annual Report is again issued in abridged form.

Publication of the ordinary lists of subscriptions, donations, etc., is temporarily suspended, but the Committee wish to express their appreciation to all friends of the Hospital for the help so generously given.

# MORE BLOOD DONORS

## — ARE —

# URGENTLY NEEDED

In the North London area alone, gifts of blood from 60,000 donors will be needed during the present year.

Modern science can perform many marvels, but cannot manufacture blood. The saving of thousands of lives every year depends upon ordinary men and women who realize the need, and volunteer as Blood Donors. Will **YOU** enrol as a donor now?

### HOW OLD MUST I BE?

Any healthy person of either sex over the age of eighteen can enrol.

### MUST I HAVE A MEDICAL EXAMINATION?

No. The doctor will ask questions about your medical history. Unless he is satisfied that you are fit, no blood will be taken.

### WILL IT DO ME ANY HARM IF I HAVE

#### (a) HIGH BLOOD PRESSURE?

No. Giving blood gives temporary relief and is often recommended by the medical profession.

#### (b) LOW BLOOD PRESSURE?

People with low blood pressure can usually give blood without any ill effect. Consult the doctor.

### WHAT IS THE BLOOD TEST?

This is a grouping test to determine how your blood will mix with that of the patients for whom it is intended.

### HOW OFTEN CAN I GIVE BLOOD?

Under a pint is taken each time. You can give this amount every three months, but you will not normally be asked to give more than twice a year. Thousands of donors have already given eight or ten transfusions since 1939, many in heavy industry, and have returned to work after 20 minutes' rest.
